STANDARD Z-CAP

SINGLE FOIL MKP CAPACITOR

PRODUCT FEATURE

The Standard-Z Cap is an entry level audiophile capacitor.

A capacitor that offers great value for money in its class. Fast reacting, smooth and detailed in sound, compared to other single foil PP capacitors.

Nitrogen filled instead of dielectric fluid, offering more foil per capacitor and eliminating risk of evaporation.

TECHNICAL DATA

- **Capacitor foil:** Metalized (ZnAl) polypropylene foil
- **Dielectric insulation:** Polypropylene film
- **Terminal leads:** PCOCC copper wire
- **Voltage rating:** 400 VDC / 250 VAC
- **Working Temperature Range:** - 30C to + 85C
- **Capacitance tolerance:** +/- 5%
- **Loss factor:** 1K 0.00002
- **Signal direction:** None (non-polarized capacitor)
- Non inductive construction

VALUES AND SIZING
